### The Topics:

- Video Wall Software CamControl MV released

### Video Wall Software CamControl MV released

The new CamControl MV (Multi-View) software can display up to 64 IP-based live video streams on up to 4 monitors. The live video streams can be transmitted from up to 64 independent HeiTel transmitters. The video-window layout can be freely defined and stored as a customised layout. PTZ cameras and relays can be intuitively controlled using CamControl MV.
